OUTDOOR KITCHENS

THE ELEGANCE AND AESTHETIC MINIMALISM OF CORIAN APPLIED TO KITCHEN FURNISHINGS

For all design lovers who want to combine practicality and attention to detail with open spaces where they can enjoy moments of relaxation, CEL COMPONENTS offers cutting-edge furniture solutions. Corian kitchens have been designed to withstand over time and over time. CEL COMPONENTS designs kitchens resistant to adverse weather conditions, indestructible and accessible to all. Our kitchens are designed for all those outdoor environments where you want to live and relax: gardens, terraces, attics, verandas and poolside. It will no longer be necessary to run from inside to outside with plates in hand, glasses, tablecloths, pots and kitchen accessories. Outdoor kitchens have become an indispensable piece of furniture for all those who love to live outdoors in company, sharing good food prepared on a plate or a professional grill.

MODULAR KITCHENS

CEL COMPONENTS modular kitchens are a made in Italy product that is supplied with or without a grill, combining the minimalist elegance of CORIAN with the practicality of modular solutions that can be easily sanitized. With its Corian kitchens, Cel Components finds a perfect combination of modernity and tradition, having conceived a futuristic concept of use and enjoyment of outdoor spaces. CEL is able to offer Italian and international customers a service with attention to every detail: from design, to construction and assembly. Our customers will be satisfied in being able to create a functional customizable product without missing any comfort. CEL COMPONENTS kitchen modules allow for easy handling and assembly. The kitchens are shipped ready for use; it will be sufficient to position them and connect them to the water and electricity mains.

VERSATILITY

Our modular kitchens can be moved, using swivel wheels, at will to transform any environment into a place of conviviality. The materials and appliances chosen determine the prices of the kitchens to be built.

TYPES

The basic composition is usually equipped with a hob, washing area, and worktop. Those who wish can complete their kitchen with a grill or induction hob. Some models are equipped with fridge, electric oven, storage compartments, drawers, to meet every need, even economic.

COLOURS

CORIAN

Corian is mainly used in kitchen tops and it has the same qualities as stone tops. It has many advantages: on the one hand it does not have the typical defects of chipboard or synthetic or semi-synthetic material tops on the other hand it can be produced in any shape.

Corian is resistant to direct sunlight and its color remains substantially unchanged over time. It withstands normal stresses as well.
